

Finally, after months and years of waiting, through staff shortages, around several staff changes (including the Executive Director), and after typing **uphill both ways through the snow**, we are happy to bring you the newest version of the Town Officer's Handbook! As anyone who has used one of these in the past knows (i.e., the "green bible" - now the "red barn book"), it's a must have. Please take note of the authors and thank them if you get a chance. They worked above and beyond to pull this off.

Town Officers Handbook Order Form
